TECHNICAL SKILLS

Programming:	Python	C	Java	Lua	Bash
Frontend:	Tailwind	Bootstrap	HTML	CSS	JavaScript
Frameworks:	Django	Next JS	Angular	React JS	Fabric
DevOps & Tools:	Git	GitHub Actions	NeoVim	SSH	Tmux
Databases:	MySQL	SQLite	MongoDB	PostgreSQL	
Design:	Figma	Photoshop	InDesign		

EXPERIENCE

Full-Stack Developer

Mar 2024 - Present

Stackify Tech (Startup)

- Streamlined operations for an International Karate Academy of **10+ years**, improving management efficiency for **150+ members** using Django, Bootstrap, JQuery and Python.
- Reduced administrative workload by implementing event mgmt for future planning.
- Optimized session scheduling with performance-tracking algorithms, ensuring fair distribution and increasing monthly sessions.
- Improved search accuracy using Levenshtein distance calculation Fuzzy Logic and Integrated **Google Gemini AI** (LLM) for chatbot feature.

Skills: Django, Bootstrap, Fuzzy Logic, Authentication, CMS, Large Language Models (LLM), Unified Modeling Language (UML), Object-relational mapping (ORM)

Software Engineer & Database Administrator

Nov 2023 - Mar 2024

Indian Jeevakarunya Charitable Trust

- Designed and developed a scalable software architecture and database structure to manage data for **500+ schools** and **3,200+ students** across India using Python.
- Automated** organizational workflows, reducing the overall processing time by **99.5%** (~44 business days to 5 hrs), enabling the organization to focus on higher-priority tasks.

Skills: Automation, Operational Efficiency, Multi Threading, Loss Adjusting, Data Transfer

PROJECTS

Game Trackr – Personal Game Showcase and Library

- Used **Angular 18** to upgrade and modernize an my first web development project
- Integrated **TailwindCSS**, SASS, DaisyUI and used **Figma** for designing a responsive UI. Used Angular components, **services**, and **interfaces** to parse and manage JSON data.

Personal Portfolio – Developer Showcase

- Architected this website using **Next.js**, **React.js** and **TypeScript** for reactivity; **Framer Motion** and **GSAP** for visually appealing custom animations.
- Optimized performance on mobile devices utilizing **lazyloading** and selective rendering.

Asset Tracking System – Blockchain Application

- Implemented an Asset Tracking System on a **Blockchain Network**.
- Developed backend **smart contracts** using **Hyperledger Fabric**'s chaincode to manage asset transactions and tracking on the blockchain.

EDUCATION

Sarabhai Institute of Science and Technology, TVM
B.Tech (Bachelor of Technology), Computer Science Engineering

2019 - 2023

SUMMARY

A dedicated Software Developer with a strong foundation in developing innovative and optimized software solutions. Proficient in various programming languages and frameworks. My goal is to continuously learn and grow, contributing to impactful developments while streamlining operations and enhancing UX.

SOFT SKILLS

- Calm Under Pressure
- Analytical Thinking
- Logical Reasoning
- Keen Observation
- Effective Time Management
- Stress Management
- Team Collaboration
- Reliable & Dependable
- Professional Conduct
- Scheduling Expertise

INTERESTS

Digital Art & Design

- Graphic Design
- UI/UX Design

Creative Tools

- Adobe Premiere Pro
- Adobe Photoshop
- Adobe InDesign

Artistic Pursuits

- Composition
- Digital Art
- Photography
- Calligraphy
- Typography

Specialized Knowledge

- Operating System
- Financial Management
